Re :ARCS SIP scheduling and future archive requests

Dear Mr. Smith:

This letter is to confirm our telephone conversation this morning regarding the Department's position on the production of recently initiated SIP's by the ARCS contractors on sites that we intend to send archive request letters on. As we agreed, upon receipt of this letter, you will instruct the ARCS contractors to stop working on the ongoing SIP's for the sites where we intend to request archive letters. In addition, it was agreed that the Contoocook Valley Paper Company will get post-SIP sampling and characterization by the ARCS contractor in the next several months. We look forward to receiving the draft work plans for this site and for the sites that will proceed with SIP's. The Department will also review the list of sites needing SI's and inform you within the next several weeks which sites should proceed with SI's and which ones will get archive letter requests.

Listed below are the SIP sites that will get archive request letters and those where we believe that an SIP may proceed because we believe that further characterization of the site is necessary.

ARCHIVE REQUEST FORTHCOMING, NO SIP NEEDED
